

The Diatonic System: Puzzle 1

Score

Below are the seven diatonic chords that can be found in a particular key .

Write the names of the notes in the circles and then provide the name of the chord in the space above the keyboard.

When you have identified all of the chords take some time to work out the single key that all can be found in and then provide the appropriate chord number (using Roman Numerals) in the space below the circles.

Finally go on to identify the "parent key" in the space provided at the bottom of this sheet.
