

Music Theory Revision

note names~intervals and scales

When students have studied the first two stages

1-Note Naming
2-Whole-Step and Half Step
Intervals...

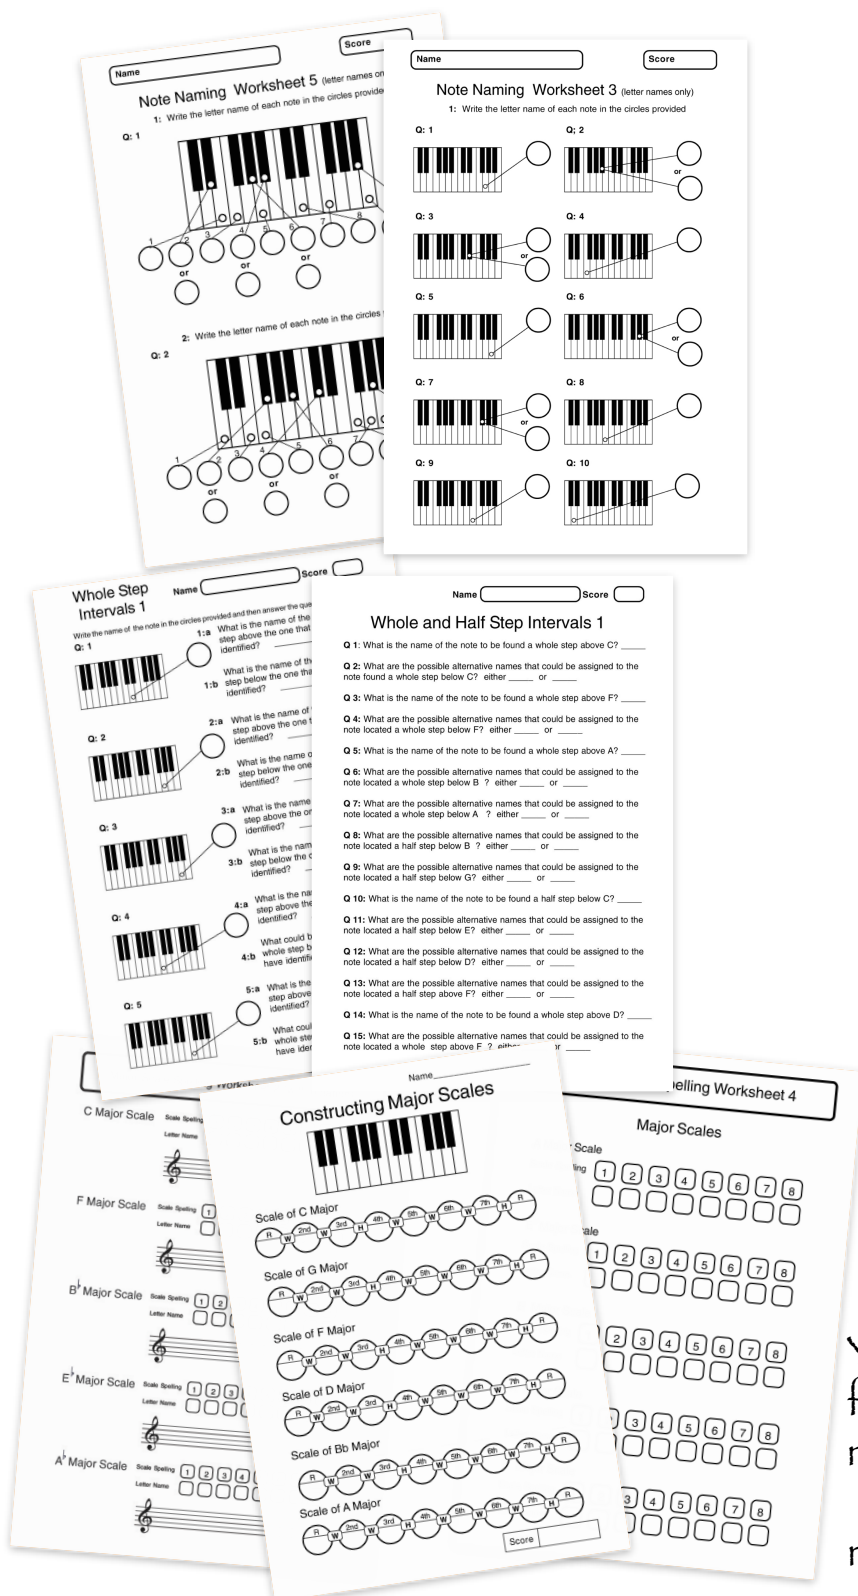

then they are ready to combine sequences of intervals into Major and (slightly later) minor scales.

The handout on the next page of this document can be given to students so as to provide a quick reference to the construction of each type of scale

To the left you can see just a few of our worksheets covering Note Naming, Whole Step and Half Step intervals and scale construction.

You can download a whole load of free lesson plans for these resources from

musicteachingresources.com
